

SAMPLE Claims Cost & Risk Review

Sample Medicare Advantage panel (synthetic) · 1,200 members, 5 PCP groups, Jan 2025 - Aug 2026 · JT Healthcare Analytics

\$1,277

Paid per member per month, last 12 months (+10.3%)

0.831

Average risk score, CMS-HCC V28 (payment basis)

\$1,538

Cost per 1.0 of risk (risk-adjusted PMPM)

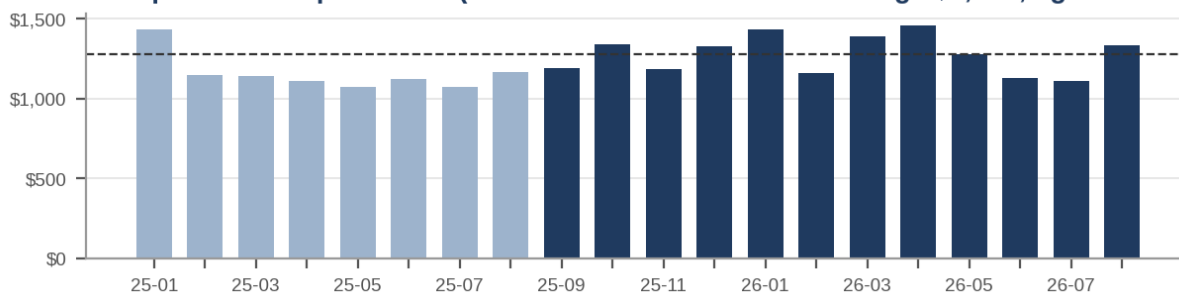

\$1,875,322

Yearly revenue in open recapture (412 members)

What we found

- Cost is **\$1,277** per member per month, up 10.3% on the prior period; inpatient is the largest category (39% of spend) and rose 20%. Admissions run at 251 per 1,000 members a year.
- Northgate Medical Group** spends **27% more** than its patients' risk explains (risk-adjusted index 1.27); its 2026 inpatient use drives it.
- Recapture:** 412 current members have 523 chronic conditions that were documented in 2025 but not yet in 2026 (71% recaptured so far, 8 months in). If clinicians confirm them at visits, that is about **\$1,875,322** a year at an illustrative \$1,100 monthly base rate. Northgate recaptures 50%, Lakeside 83%.
- The top 5% of members account for **33%** of spend; most are cancer and multi-condition patients already known to the care team. Care management capacity belongs there.

Paid per member per month (dashed line: last-12-month average \$1,277; light bars: earlier months)

PMPM by service category

Category	Last 12 mo.	Prior 8 mo.	Share
Inpatient	\$496	\$415	39%
Emergency	\$67	\$62	5%
Outpatient	\$208	\$218	16%
Professional	\$158	\$147	12%
Post-acute (SNF/HH/hospice)	\$29	\$14	2%
Pharmacy	\$318	\$302	25%
Total	\$1,277	\$1,158	100%

By PCP group: cost vs risk

Group	PMPM	Risk	Index	Recap tured
Riverside	\$1,181	0.91	0.96	81%
Oak Hill	\$1,301	0.96	0.99	70%
Peachtree	\$1,158	0.94	0.91	72%
Northgate	\$1,620	0.94	1.27	50%
Lakeside	\$1,108	0.96	0.85	83%

Index = group PMPM vs overall, divided by group risk vs overall; above 1.08 the group spends more than its patients' risk explains.

Recapture list and plan

Chronic conditions documented last year, not yet this year: prompts for a visit, never codes

Members with the most at stake (first 10 of 412)

Member	PCP group	Age	Open conditions (documented in 2025)	Revenue / yr
M100542	Oak	70	Rheumatoid Arthritis; Parkinson; Pressure Ulcer of Skin	\$37,799
M100036	Northgate	85	Diabetes with Chronic Complications; Morbid Obesity; Specified Heart Arrhythmias; Ischemic or Unspecified Stroke; Chronic Kidney Disease; Pressure Ulcer of Skin	\$35,902
M100136	Peachtree	70	Pressure Ulcer of Skin	\$22,875
M101096	Northgate	68	Pressure Ulcer of Skin	\$22,875
M100402	Northgate	67	Lung and Other Severe Cancers; Heart Failure	\$18,719
M100486	Peachtree	98	Diabetes with Chronic Complications; Rheumatoid Arthritis; Dementia; Bipolar Disorders without Psychosis	\$17,008
M100132	Northgate	64	Dementia; Chronic Kidney Disease	\$16,565
M101018	Northgate	88	Diabetes with Glycemic; Heart Failure; Specified Heart Arrhythmias; Chronic Kidney Disease	\$15,914
M100176	Oak	44	Parkinson; Chronic Kidney Disease	\$15,716
M100380	Northgate	67	Heart Failure; Chronic Obstructive Pulmonary Disease; Chronic Kidney Disease	\$14,144

Most common open conditions

Condition (CMS-HCC V28)	Members with it open
HCC280 Chronic Obstructive Pulmonary Disease	66
HCC37 Diabetes with Chronic Complications	59
HCC238 Specified Heart Arrhythmias	57
HCC38 Diabetes with Glycemic	51
HCC226 Heart Failure	46
HCC329 Chronic Kidney Disease	43

90-day plan

Action	Owner	Measure
Annual wellness visits booked for members with 2+ open conditions, Northgate first	PCP group managers	Recapture rate by group, monthly
Pre-visit summary of last year's chronic conditions in the chart before each visit (clinician confirms or resolves)	Care coordination	Conditions addressed per visit
Inpatient review at Northgate: admissions by diagnosis and attending, 7-day follow-up after discharge	Medical director	Admits per 1,000; risk-adjusted index
Complex care list: top 5% of spend matched to care managers	Care management	Members engaged; ED and inpatient use

What the group receives and what it costs

Service	Deliverable	Fee
Claims Cost & Risk Review	PMPM by category and group, CMS-HCC V28 risk score for every member, risk-adjusted group scorecard, recapture list, high-cost list, findings meeting	\$7,500-\$15,000
Monthly recapture + quality lists	Refreshed recapture and quality gap lists per PCP group, monthly summary, Power BI dashboard	\$1,500-\$3,500/month

Compliance: the list identifies conditions to review; only a clinician at a face-to-face visit can confirm and document a condition (monitored, evaluated, assessed or treated). Coding unsupported conditions is fraud; JT prepares the analysis, the practice decides. Risk scores: CMS-HCC V28 community and institutional segments, payment-year 2026 mappings, age as of Feb 1; payment basis = raw × (1 – 5.9% MA coding adjustment) ÷ 1.067 normalization. New-enrollee and ESRD models not included. Needs claims with diagnoses and an eligibility file under a Business Associate Agreement. Synthetic data.
